

NZ Hydrological Society

Annual Technical Workshop

9th to 12th April 2024 – Queenstown

Theme: Managing Expectations, Quality, Quantity, Resources, Resilience

INVITATION

On behalf of the organising committee for the NZ Hydrological Society Technical Branch, we would like to invite you to attend the workshop as a sponsor and/or exhibitor. You will have unique access to promote your company and market your brand to influential stakeholders in the environmental monitoring industry.

This workshop provides a unique opportunity for field technicians and industry suppliers to network, learn from each other and promote their products to representatives from all over New Zealand. More specifically, we encourage and anticipate participation from leading local government, crown research agencies, water utility providers, hydro power generators, private industry groups and other individuals. All practitioners with an interest in the profession of environmental are welcome.

It is an opportunity for field technicians to gather and learn more about their profession as well as share knowledge and experiences from their working environment or projects they may be involved with.

WORKSHOP

This year's workshop will be held at the Rydges Lakeland Resort Queenstown.

Tuesday 9th April – To allow travel times and arrivals, day one will begin late morning – This day will be a workshop/training session.

The social event will be held at the end of day one on-site.

Wednesday 10th April – Annual gauging regatta (field day). This is an opportunity for organisations to field validate their instruments against another organisations. There will also be an opportunity for sponsors / exhibitors to demonstrate the use of their monitoring equipment while on-site. As an alternate to the field day there will also be a data reporting and presentation workshop.

Thursday 11th April – Formal workshop presentations from submitted abstracts. This will involve break-out groups at times depending on the subject.

The workshop dinner will be in the evening and will be also held on-site.

Friday 12th April – Formal workshop presentations and feedback from both the field and data reporting and presentation days followed by prize giving. Mid afternoon finish allowing for travel home.
